

CEOs Call To Action

To Business, Politics and Civil Society

A New Deal for Europe

Europe is in turbulent waters – navigation becomes more difficult as multilateralism, partnerships and common visions are challenged. **What we need is a New Deal for Europe – for a Europe with a shared sustainable vision for its future.**

We are business leaders that take the United Nations Sustainable Development Goals as a compass to make the transformation required to face the challenges. The Paris Agreement and the UN Guiding Principles on Business and Human Rights are the beacons on our journey.

As business we want to provide value to society and sustainable profitability through a strong purpose and ethical foundation of our business. We believe in a democratic society in Europe where the rule of law, cooperation between enterprises, civil society and governments are our greatest assets to respond to the public concerns on the path to the future of Europe; a Europe that leaves no one behind.
